Hot Products

K8N Diamond Plus Diamond Heart, Irresistible Char

- Extreme in Performance; Luxurious in Features
- Full Spec. Support of AMD Platform
- Cinematic Sound Effects from Creative Audigy SE 7.1 channel HD Audio

975X Platinum Enjoy Advanced 65nm Dual-Core Computing Technology

- Fully Supports the Latest 65nm Dual-Core Processors
- First to implement Multi-Graphics on Intel Chipset
- Supports DOT express technology

Free Style FS120

- MSI introduces Free Style FS120 Bluetooth Music Transmitter to make FS110 & FS120 series the ultimate wireless music solution. No software required or need for complex installation as all you need is to plug the FS120's built-in standard 3.5mm plug into your audio device like MP3/CD player, iPod, PSP, PC, Notebook, etc....

Free Style FS110

- The MSI FS110 is an innovative wireless Bluetooth Stereo Music Headset built with the Bluetooth V1.2 technology. It provides CD quality sound within a range of 10 meters, and 3 set of pairing memory with multiple Bluetooth transmitters....

NX6600GT-TD256EZ

- Microsoft® DirectXT 9.0 Shader Model 3.0 support
- NVIDIA® SLIT multi-GPU ready
- 128-bit memory interface with advanced memory control
- Innovative 0.11 micron process technology
- 500MHz core clock speed
- 1000MHz 256MB GDDR3 memory
- Vertices/sec. (Million): 375

What's New

MSI Launch NX7300GS 3D Graphic Series Touched Experienced, Soaring Performance!

Incorporating the newest NVIDIA GeForce 7300 GS graphics processor which delivers superior cinematic resolution and high performance acceleration for today's demanding 3D graphic applications. The MSI NX7300GS Series is the best choice for the most complete solution for the 3D and video application market at a sensible price.

MSI 90nm Series Reaches the Peak of Perfection "MSI RX 1900 series"

The frequency of MSI RX1900 series can reach up to 650MHz (Core)/ 1550MHz (Memory). Through dynamic clock technology, MSI RX1900 can decrease its frequency as low as 500MHz/1200MHz to save power consumption in 2D mode. While in 3D mode, the frequency can be raised up to 650MHz/ 1550MHz to achieve better 3D quality.

MSI Launch NX7800GS 3D Graphic Touched Experienced, Soaring Performance!

The NX7800GS series includes various state-of-the-art technologies such as CineFX 4.0 engine which delivers twice the graphics power of previous GPUs, Microsoft DirectX 9.0 Shader Model 3.0 for great gaming experiences, and OpenGL 2.0 to ensure top-notch compatibility and performance for all OpenGL applications.

Technical Express

K8N Diamond Plus BIOS Optimization

Below is the menu screen of K8N Diamond Plus BIOS Setup. For performance tuning, users can adjust the memory timing and CPU FSB in "Cell Menu".
