Hot Products

NX7950GX2-T2D1GE

- GeForce 7950GX2
- 1GB DDR3 Memory
- NVIDIA SLI™ Tech.
- Dual DVI-I
- TV-Out/HDTV ready
- HDCP ready
- Live Graphics Card BIOS/Driver
- Bundled 3D Games: KING KONG

975X Platinum PowerUp Edition

- Radeon 1950XTX
- 512MB DDR4 Memory
- CrossFire™ technology
- Two Dual-Link DVI support
- VIVO+HDTV support
- Up to 48 pixel shader processors
- 8 vertex shader processors
- 1000MHz Memory Clock Speed

Crystal 945

- Support Intel® P4/D/Celeron D(dual core) CPU
- Intel® 945G+ICH7 chipset
- Supports 2 DIMMs Dual Channel DDR2 667/533
- Supports Gigabit Ethernet LAN
- 17" TFT LCD Panel
- Power Supply 220W
- Optional CD-ROM/Card Reader
- [<More...>](#)

P610

- Built-in 512MB~2GB memory
- MP3/WMA + DRM Playback
- Photo Browsing & M-JPEG Playback
- CD Direct Recording
- TXT File Reader and Lyric Synchronization
- Rechargeable Li-ion Battery
- SRS WOW Sound
- [<More...>](#)

StarCam Clip

- Capture 1.3 Mega Pixels Photos
- Night Vision three infrared light
- Built-in Plug-&-Talk USB Microphone
- Focus Adjustable Lens
- Click & Snap Snapshot Button
- Special Effect for Fun and Digital Zoom
- Versatile Clamp Design
- [<More...>](#)

What's New

MSI introduces Intel® Xeon® platform series server products, Intel® Xeon® Processor Provides the Best Performance and Energy Saving Solution

Taipei, Taiwan, July XX, 2006--MSI, a leading motherboard and graphics card manufacturer, in COMPUTEX 2006 introduced a series of innovative Intel® Xeon® platform products, including new motherboards 5000P Master and 5000X Master, as well as 1U server X2-106 and 2U server X2-203 series. Both SAS and SATA models, enterprise servers, are ready to the market. [<More...>](#)

Ultimate Platform for Intel Core™ 2 Processors 975X Platinum PowerUp Edition

MSI, one of the world leaders in motherboard design and manufacturing, creating the 975X Platinum PowerUp Edition has superseded its design to support the powerful processor Intel "Core™ 2". This processor is due for release in the 2nd half of 2006, along with MSI's new and improved 975X Platinum PowerUp Edition offering full support for the latest Core™ 2 series processors. Packed full of impressive features designed to satisfy every gamer's greatest desire! [<More...>](#)

Getting Ahead to New Dual-Core Era MSI 965 Series Motherboards Launch

Micro Star International (MSI), a leader of motherboard manufacturers, formally launched P965 series motherboards based on Intel P965 Express Chipset (code: Broadwater) at Computex Taipei 2006. The motherboards are featured with all functions of the new generation Intel platform, fully support the new generation Core 2 processor. They completely meet the highly demanded requirements of the Intel platform. After the enthusiastic expectation by many, the products have finally appeared. [<More...>](#)

MSI Launches its First Pocket Size Digital TV: D310 Now Never Be Without Your Pocket-sized Portable Entertainment Center

Micro-Star International, a leading global manufacturer of consumer electronics, is launching the world's first pocket-sized DVB-T-the D310. The multi-function D310 is not only portable but also employs advanced technologies that allow viewers to watch TV in any place where the DVB-T format is used, such as in Europe, Australia and South East Asia. Now our customers will not have to miss any important news stories, sports events, weather forecasts, or financial updates ever again. At the same time they can enjoy more than 300 global DVB channels, MP3s, movies and photos during their busy workday or on a business trip abroad. [<More...>](#)

Brand new Dual-Core and top notch performance MSI introduces Intel® Bensley platform series new products

Taipei, Taiwan, June 7th, 2006--MSI, a leading motherboard and graphic card manufacturer, in this year's Computex introduced a series of innovative Intel Bensley platform products, including new motherboards 5000P Master and 5000X Master, as well as 1U server X2-106 and 2U server X2-203 series. All these products are targeting enterprise server market. For the server products, there are two models, SAS model and SATA model, ready for users to choose according to their needs. [<More...>](#)

Brand new DDR2 and top notch Opteron Platform MSI introduces innovative platforms for AMD Socket F Servers

The K9SD Master-A8R is MSI's high-end product intended for high-end Opteron servers and workstations. Thanks to the high performance, energy saving, flexible AMD Opteron dual-core processor -- along with dual Gigabit LAN function, high bandwidth PCI-Express, and MSI's exclusive server-management software, iConsole -- brings ultimate performance and reliability to enterprise servers, enabling the servers to easily handle resource-consuming business applications; furthermore, the excellent expansion flexibility is well enough for the ever-growing requirement of enterprises.
