What's New

Theater level equipment and top-notch game performance, 17" big screen best for home theater entertainment

MSI, world-leading IT product designer and manufacturer, announced a 17" notebook, L740. Intel® Centrino® Duo technology is the latest mobile computing technology developed from the Centrino®, providing best power saving and wireless platform with no compromise on system performance. Further with a revolutionary heatsink technology "Advanced Cooling System (ACS)", exclusive from MSI, as well as a big capacity nine-cell battery, the running time of the L740 can easily over four hours, saving you from carrying an extra battery when you go on business. <More...>

Non-Stop Innovation Leadership, MSI P965 Platinum Leads to Support ATI CrossFire

Micro Star International (MSI), a leader of motherboard manufacturers, after launching the P965 Platinum based on Intel P965 Express Chipset, now lead the industry to be the first in supporting ATI CrossFire, thanks to our pioneering R&D, MSI not only declares continuous innovations on Intel chipsets, but also provide outstanding performance to all users. <More...>

Convenient Manageability, High Security, Best Performance MSI Launch Q965MDO Supports Intel® vPro™ Technology

The MSI Q965MDO chooses Q965 and ICH8DO for its chipset, and integrates all of the necessary functions for vPro™ digital office technology; through the Intel® PRO Gb LAN, Q965MDO combines with Intel® Matrix Storage Technology and Intel® Active Management Technology to deliver high security storage and convenient manageability in office environment, heading to high productivity, and then take the best position for cut-throat business competition. <More...>
