BurnRecovery Procedures

Important:
Please make sure to prepare at least 3 or more blank DVD’s before performing Burn-in Recovery.

Step 1
Execute MSI BurnRecovery function by either following the given procedures:
- By double clicking the software icon located on the desktop (see Fig.1).
- By accessing the Burn Recovery Disc Creation Tool from the start menu (see Fig.2).

Go to [Start] menu → MSI → BurnRecovery → MSI BurnRecovery.
Step 2
Once you are prompted with the Burn Recovery window, click Next to proceed into Recovery disc creation process.

Step 3
On the next window, you will be prompted to choose the following options:
- By clicking Next button, recovery disc procedure will immediately begin.
- By clicking Advanced..., you will have the option to create an ISO file for the recovery disc.
Step 4
Preparation in creating the Recovery disc. Please wait.....

Step 5
After the preparation is completed, the system will now inform you how many blank DVD’s are needed for the backup. Then, please insert the 1st DVD into your system’s ODD (at least should be DVD-ROM), press Next.
Step 6
Please make sure that “Verify disc after burning” option has been selected, then press “Burn”.

Step 7-A
The system will inform you once the 1st DVD has been successfully created, then it will ask you to insert the 2nd DVD.
Step 7-B
Again, please make sure that “Verify disc after burning” option has been selected, then press “Burn”.

Step 8-A
The system will inform you once the 2\textsuperscript{nd} DVD has been successfully created, then it will ask you to insert the 3\textsuperscript{rd} DVD.
Step 8-B
Again, please make sure that “Verify disc after burning” option has been selected, then press “Burn”.

Step 9
Now, you have created your own back up of your system recovery.
Step 10
If you are done with the backup recovery and certain that you do not need to use it to create any other recovery disc, you can choose to remove the temporary files since this will help you save a lot of hard disk space. Then, click **Finish** to close the application.
